---

## Profile

I am a motivated BCA student with strong proficiency in Python, Java, and JavaScript, including frameworks such as Django and React. I have hands-on experience in full-stack development and data analysis, with a demonstrated ability to problem-solve efficiently. I am passionate about leveraging my technical skills to create impactful projects

---

## Skills

### Technical

- Programming Language: Python, Java, JavaScript, HTML, CSS
- Framework and Libraries: Django, Flask, Tailwind CSS, React.js, Node.js, Express.js
- Database: MongoDB, SQLite
- Data and Machine Learning: Pandas, NumPy, Data Analysis, Machine Learning (Basics)
- Tools: Git, GitHub, Notion

### Non-Technical

- Planning & Time Management
  - Knowledge Management
  - Documentation & Note-Taking (Notion, Obsidian)
  - Communication & Collaboration
  - Problem-Solving
  - Creativity & Design Thinking
- 

## Projects

### Image Editor

*Skills used:* Java, ImageIO, AWT, Command-line Interface

*Link:* [GitHub - Image Editor](#)

Developed a Java-based command-line image editor with grayscale and sepia filters, supporting flexible input/output handling and interactive filter selection.

---

### Expense Management App

*Skills used:* HTML, CSS, JavaScript, Local Storage

*Link:* [Expense manager website](#)

Built a responsive web app to track daily expenses with local storage support and an interactive user interface.

---

### Custom Task Manager (Current Project)

*Skills used:* MERN Stack (MongoDB, Express.js, React.js, Node.js), REST AP

*Link:* [Tasks](#)

Designed a full-stack task management system with a React frontend, Express/Node backend, and MongoDB for persistent storage.

---

## Education

Birla Institute of Technology  
Bachelor of Computer Application  
Current SGPA: 8.75  
2023 – Present
